

## CASE STUDY

# Single Ply PVC Membrane Calderlea Medical Surgery

J Shearer Roofing Ltd was contracted by Calderlea Medical Surgery to carry out the supply and installation of a Single Ply Membrane in July 2021.

The scope of works included the:

- Erection of necessary scaffolding and edge protection.
- Strip off existing roof coverings.
- Supply and install the Fatra FF810 Mechanically PVC Membrane with standing seam profiles.
- Supply and install new Rainwater goods.

Prior to works commencing, we undertook a detailed roof survey, assessed the property with regards to safety, access, and provided a comprehensive price and plan of works for the client.

We recommended the install of the Single Ply Roofing Membrane which provided the Medical Surgery with a flexible, lightweight and cost-effective waterproofing solution for their building.

Providing reassurance and peace of mind, the Single Ply Membrane is British Board of Agreement (BBA) accredited and certified with a life expectancy in excess of 25 years.

Works were carried out by our highly experienced operatives who are specially trained and approved in the application of single ply PVC membrane products.

As the project was carried out on a live operational building, in addition to the roofing works, the project involved a considerate site set up to accommodate public safety, access, security and staff welfare.

Works were successfully delivered within the agreed 6 weeks programme.

## At A GLANCE

**Client:** Calderlea Medical Surgery

**Location:** East Kilbride

**Type of Roof:** Single Ply PVC Membrane

**Contract Start:** Jul 2021

**Contract Completion:** Aug 2021

**Square Area:** 750m<sup>2</sup>

**Value:** £100,000.00

Highly recommend J Shearer Roofing Ltd. Project managed efficiently and hassle free. Job completed on time to a very high standard. The new roof has had a positive change to our building from the outside and has stopped the many leaks on the inside.

Very reliable company.

Fiona Drummond,  
Practice Manager, Calderlea  
Medical Surgery, East Kilbride.
